

Republic of South Sudan

Tonj State-Tonj

Governor's Office

Mr. Ban Ki Moon
Secretary General of the United Nations

Date: 10th May 2015

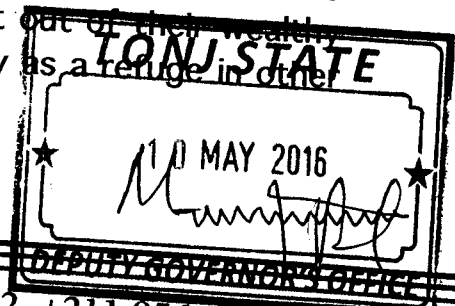

Subject: Condemnation for the Statement made by Ms. Ellen Loej, the Special Representative of the Secretary General and head of United Nations mission in South Sudan

The United Nations Mission in South Sudan said it does not officially recognized the 28 States created by President Salva Kiir and that the new States have increased ethnic tension.

This is unbecoming, we people of Tonj State in particular and South Sudan in general do hereby condemn in the strongest terms possible the unfortunate Statement made by Ms. Ellen Loej, the Special Representative of the Secretary General and head of United Nations mission in South Sudan because this is a clear ill intention against the will and demands of the people of the Republic of South Sudan.

Former and the present SRSG and Heads of UNMISS always turns to be the propellers or inciters of the disaster in South Sudan including 2013 bloodshed and responsible for the mass destruction and death of our innocence people of this new nation led by Eida Johnson and her friends and enemies of South Sudan. This statement is a clear violation of our sovereignty that we labored for, for the last 50+ years. This expansion of our house is a popular demand from the people and not from H.E. President Salva Kiir Mayardit. Just to remind you Secretary General of the United Nations,

This demands of 28 States or a vision of taking towns to the people at rural areas was just implemented by our President Salva Kiir Mayardit after 60+ years of demands by all the people of Republic of South Sudan, who believes that, our hero Dr. John Garang De Mabior and his colleague Gen. Salva Kiir Mayardit in the SPLM did not created this beautiful idea from the blue but promised it out of their wealthy experiences as rural community boys and equally as a refuge in other Countries such as East Africa etc.

Firstly as village boys who used to farm and rear cattle's in the village, Garang and Kiir saw the beautiful of rural life and thus, they preferred to live there then. The fact that the rural people were and are majority who never experience the importance of towns, and coupled with their experience about the consequences of slums dwelling in the cities, Dr. John Garang and President Salva Kiir thought it necessary that the rural people should be delivered basic services namely; health facilities, Schools, quality roads, water and sanitation facilities, agricultural technology, industrial innovations among others.

We guess President Kiir believe that when the people in hamlets have access to the said basic services, it would reduce or eradicate potential problems associated with socio-economic and political aspects beside avoiding the rural people to emerge into towns or urban centers.

Therefore for this idea to flourish and to be achieved, Gen. Salva Kiir, took a bold decision to create 28 States in order to bring town and services closer to the rural people and for these reasons, we the people of Tonj State rejected what the enemies of South Sudan do by denying us our rights and needs such as this popular demands of the entire nation. Should there be a problems associated with land dispute or state boundaries /borders, then we people of South Sudan can be given a chance to resolve them amicably but not UN/ IGAD to come in, as this amount to a serious interference into our internal and in house affairs.

Please should you continue to advocate for the reverse of 28 States, then people of South Sudan will have a objective to fight for a justify war, which will be more than any other wars fought before in the whole Sudan and South Sudan in particular. For that matter, we condemn the ill statement by your Special Representative of Secretary General and Head of Mission in the republic of South Sudan, please leave us alone to breath, assimilate and readjust our internal affairs for the betterment of the people of South Sudan.

Finally we urge UN and those wishing people of South Sudan not to be stable to stop interfering into our internal affairs once again and therefore, we said no no to the revocation of 28 States, or else more bloodshed will be witnessed for the liberation of 28 States if so wish and preferred by UN/UNMISS and other enemies of South Sudan.

Long lives 28 State in the republic of South Sudan
